DETAILED ACTION

Allowable Subject Matter

1. Claims 36-38 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to show a linearizer comprising an adaptation controller with M monitor signals input thereto and M control settings output therefrom, wherein the adaptation controller first determines M uncorrelated adjustment settings dependent on the M monitor signals, and then adjusts the M control settings using the M uncorrelated adjustment settings as called for in claims 36-38. Therefore, claims 36-38 are presently allowed.
